### **TOUR-READY INFO SHEET**

*Tech specs and other info available on request*

An exciting collaboration with melbourne-based Trash Puppets, *Escape From Trash Mountain* is a poignant look at how good relationships and fervent optimism are the key to saving our planet. The show's central set piece is a large mountain of trash that transforms into a cave and becomes the epic playground for our heroes to fight trash bats, navigate treacherous ravines, and outwit hideous trash monsters!

Two performers operate 17 different puppets and facilitate all set transformations to bring the show to life and can be immediately followed by a **Trash Puppets workshop** where the audience has the opportunity to make their very own Trash Puppet, guided by our expert puppet-maker performers.
